AlHuda Centre of Modest Fashion-UAE

AlHuda-Center of Modest Fashion came into existence in 2019. Ever since its commencement, AlHuda Centre of Modest Fashion team is working devotedly and tirelessly to promote Modest Fashion around the world beyond religious misconceptions. Our purpose is to develop a global network of Modest Fashion and to educate and train people by conducting research & development, capacity building, events, publications and providing consultancy to fashion brands, in this regard so that we can normalize the concept of modest fashion for both men and women.

Modest Fashion

Modest fashion is a largest growing industry. Modest dressing refers to a fashion trend in women of wearing less skin-revealing clothes, especially in a way that satisfies their spiritual and stylistic requirements for reasons of faith, religion or personal preference. The exact interpretation of 'modest' varies across cultures and countries. There is no unambiguous interpretation as it is influenced by socio-cultural characteristics of each country. Beyond the various interpretations, all agree on the idea that modest fashion means loose clothing, comfortable dressing and covering of the body according to person's own comfort.
